CANDIDATES' SYMPOSIUM TONIGHT PRECEDED BY BIG STREET PARADE

Yes, the big thing is on for tonight. It will be a family reunion of the down-and-outers, the boys and girls who failed to get enough votes to elect them on the seventh of this month. It will be a unique event, one in which Republicans, Democrats and Socialists—Prohibitionists, also, if there were any—will hold a love feast, a sort of consolation banquet, and anyone displaying the slightest indication of a grouch will have it joshed out of him.

The parade will form at the Elks' home at 8:15 and march to the Rathskeller, where a banquet will be served.

The Bonanza has been very fortunate in having received from the defeated candidates advance sheets on the addresses they will deliver. Of course, it is customary to not publish accounts of meetings until after they have taken place, but this is such a remarkable assemblage that remarkable means may be permitted in reporting it.

Charles Slavin will say, in part, as follows: "It was a good old machine, but it done broke down."

Letson Balliet: "Nothing is more deeply to be deplored than lack of efficiency in politics. I should have equipped myself with a counter-balance."

Frank T. Dunn: "So long as my boss got there I do not care for myself, but with gasoline going up, that hundred a month pales into insignificance compared with the salary I might have drawn. I'm so glad, however, that everything went this way that I could almost cry with joy."

Frank Cavanaugh: "If justices of the peace had the power to sentence to death, the job might have been worth campaigning for a little harder."

(Wire from Hughes): "Tell Nick not to pay Mickey the wage till Wilcox wins him."

J. E. McNamara: "God reigns and the Socialist party still lives—in spots."

Fay Davis: "I wouldn't trade my twelve by twelve on lower Main street for the dome of the state capital."

Henry Schmidt: "It was a case of avoidpools, although I was a close second."

Chorus of eight prospective solons nipped in the bud: "Tell us, pretty voters, are there any more like you?"

Earl B. Paxson: "I have nothing to say."

"W. M. G." Grimes: "Check."

Al Shidler: "I am still a Socialist, but some I thought were aren't."

N. K. Franklin: "I could no more develop a grouch than could Happy Jack."

Susie Oldham: "It was my first experience and I really enjoyed everything connected with the campaign except the returns."

George L. Dugan: "After all, there is no place like Hot Creek."

N. L. Schade: "I offered myself for my party as a sacrificial lamb and I don't feel a bit sheepish."

Loupa and Marsh, synchronously: "The best man won." Sotto voce: "We guess not."

Berg, Campbell, Clendening trio: "We fought a good fight, we kept the faith and now we can go away back and rest."

Keenan and Pearce: "Shake, Herman. We tried to shake you before election, but it wasn't in the cards."

Toland: "What makes me happy is to think that I got more votes than 'Big' Roberts."

Roberts: "I'm certain that all the people who promised me a vote did not go to the polls."

Bill Evans: "If you think I'm sore, just watch me smile."

Con Fiesler: "I wouldn't have paid two cents' premium on a policy insuring my election. Let everybody sing 'Somebody Lied.'"

GYPSY RESUMES IN THE CROSCUT

MINE FREED FROM WATER AND DRIVING FOR GOLD VEIN STARTED

The Gypsy Queen is now free from water after a long siege in which the management met with many drawbacks, all of which have been overcome. The pumps finished their heavy task last Wednesday and the croscut on the 1500 level is now being advanced with the object of picking up the gold vein that was encountered in the winze when the flow of water interrupted further progress.

There is about thirty-five tons of ore on the loading platform so rich that the West End mill doesn't care to handle it, and it will probably go to a smelter. Meanwhile the levels are being shaped up for extensive work, which will be made easier because of the air connections with the old workings.

Regarding the Monarch, Mr. Brougier said: "See Branch Smith. He is the man on the job. I think he is going to make a mine. I am more than pleased with the showing above the thousand foot level. But even better than seeing Branch is for the Bonanza to take a look itself."

Mr. Brougier, Ben Edwards and Billy Douglass paid a visit to the Santa Rosa mine, between Dorwin and Keeler. They say that the lease work, as well as that which is being done on company account, is showing up vast quantities of zinc-lead-silver ore and 12,000 sacks of ore are awaiting shipment to the Salt Lake smelter, via Keeler and Mina.

THREE PROPERTIES HAVE FINE SHOWING

H. Cal Brougier, before leaving for the coast yesterday, expressed himself as greatly impressed with the showing in the Midway, where both a raise and a winze are being sent on the ore from the eight level.

GOLDFIELD HERE WITH ITS ORANGE AND BLACK

SECOND GAME ON BETWEEN HIGH SCHOOLS OF THE SISTER CAMPS

The football teams of the Tonopah and Goldfield high schools are engaging in combat this afternoon. This is the second game of the series, Tonopah having been victorious in the first encounter by the score of 26 to 7.

The sister camp is represented by about 22 auto loads, all the machines being crowded to the guards and some of them being big trucks converted into passenger carrying vehicles.
